Connecting Research
and Researchers

<https://orcid.org/>

- ORCID is an acronym : Open Researcher and Contributor Identifier
- A 16-digit unique identifier for researchers and their body of work
- A researcher id to distinguish yourself from other researchers

ORCID at ARS Goals

- 50% of ARS scientists to have an ORCID iD by end of FY 2018
- In all Senior Leadership Performance Plans

ORCID and NAL

- USDA has joined ORCID as a member organization
- NAL is coordinating for ARS and USDA
- NAL staff are working with ORCID team on API access and integration

ORCID at ARS Goal

- Outreach and training: NAL staff will provide training materials and provide presentations for ARS staff

Why ORCID for USDA and ARS?

- Facilitates linking and discovery of research outcomes and products across ARIS, Ag Data Commons, PubAg, VIVO, and more

Ag Data Commons

PubAg

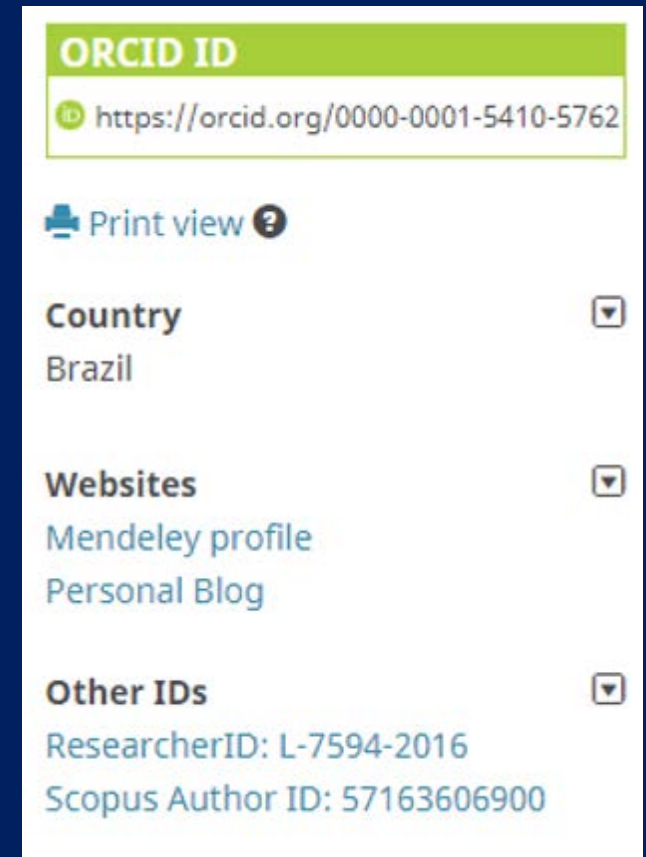

VIVO

And More!

Why ORCID for USDA and ARS?

- Facilitates discovery and access – it will allow ARS and NAL to link content and resources across systems via ORCID identifiers for researchers

Why ORCID for USDA and ARS?

- Provides name authority control -- Distinguishes you and ensures your research outputs and activities are correctly attributed to you

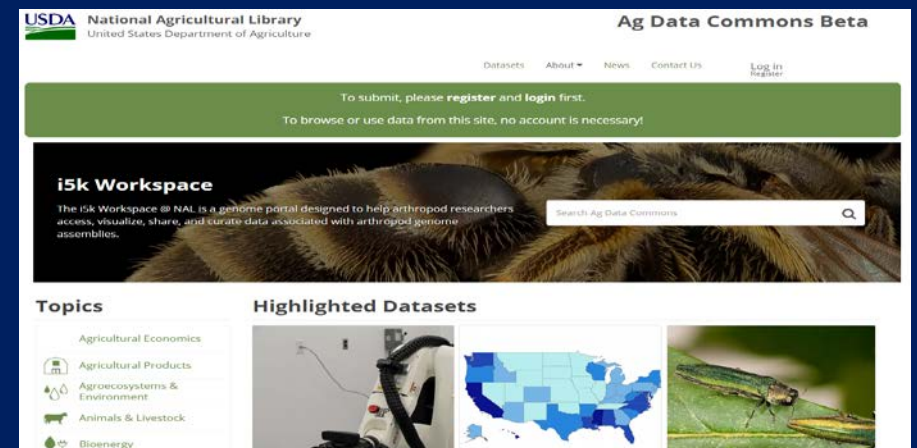

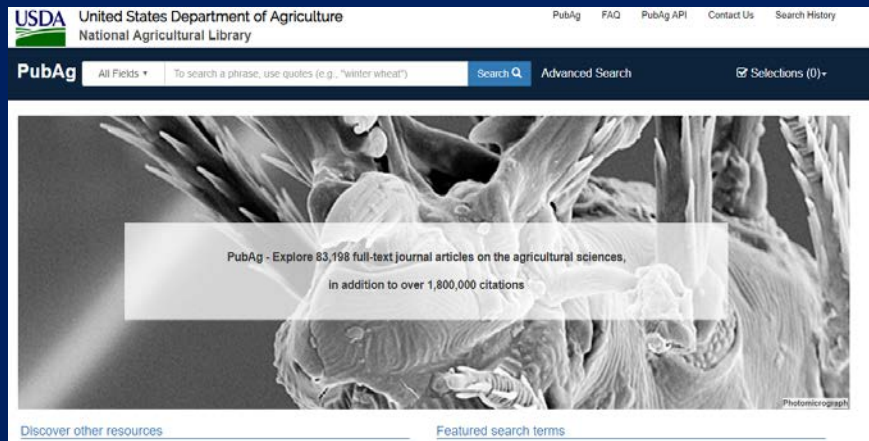

The screenshot shows the ORCID website interface. At the top, there is a search bar and navigation links for 'FOR RESEARCHERS', 'FOR ORGANIZATIONS', 'ABOUT', 'HELP', and 'SIGN IN'. Below the navigation, there is a table of search results for 'John Smith'. The table has columns for 'ORCID iD', 'First/given name', 'Last/family name', 'Other names', and 'Affiliations'. The results show several entries for 'John Smith' with different ORCID IDs and affiliations, including 'RMIT University City Campus'.

Next steps:

1. Add more information to your ORCID Record

Access your ORCID record at <https://orcid.org/my-orcid> and add more information to your record. If you haven't already done so, we strongly recommend that you add more than one email address to your account, since our system checks names and email addresses to prevent the creation of duplicate records.

Funders, publishers, universities, and others use the information contained in your ORCID record to help reduce the record-keeping they ask from you. Increase the information you can share by adding other names you are known by, professional information such as your affiliation, biography, and keywords, funding you have received, and works you have created or contributed to your record.

See our tips for [six things to do now that you have an ORCID iD](#). For tips on adding information to your ORCID record see: <https://support.orcid.org/knowledgebase/articles/460004>

2. Use your ORCID iD when publishing, applying for grants, and more

Many systems ask for your ORCID iD in order to create a link between you and your research outputs and affiliations. Using your ORCID iD, and granting organizations permission to update your record whenever they request this will help you get credit for your work and reduce time spent on future record-keeping.
