

# AGM Weekly Update

Greetings All,

At the stakeholders meeting last Wednesday, it was suggested that a "test email" be sent out to ensure everyone on the email list is receiving the updates. I anticipate the maximum number of photos each week will be three so I included three photos in this test email. Please let me know if you can't see the photos and I will do my best to fix the problem if at all possible. There is no need to respond unless there's a problem.

Thanks,  
Nickolas Dufek  
Biological Science Technician  
USDA-ARS-RRRU  
Central Plains Experimental Range  
Nunn, CO

We preparing for the 2014 grazing season. In above photo David Smith ARS tech setting up automated soil moisture equipment.
