Instructions for Submitting Abstracts

Abstracts providing an update on the results of each funded “Plan of Work” conducted in support of the Sclerotinia Initiative should be submitted by December 30, 2024. Abstracts will be compiled into a proceedings booklet that will be distributed at the Annual Meeting. Multiple abstracts can be submitted for funded plans of work with more than one investigator.

Abstracts should be submitted electronically (via e-mail). Abstracts should be no longer than one page in length and should be single spaced using Times New Roman 12-point font. Both left and right margins should be 1 inch in width. Send your abstract in a word document, so it can have changes made easily.

The following information should be included on each submitted abstract:

- Abstract title (bold print)
- Authors (name and institution)
- Name of funded plan of work the abstract supports
- Contact information for primary author

See Page 3 of this PDF for an abstract example.

Abstracts should be sent electronically and **each separately** to:
Annette Fischer: annette.fischer@usda.gov

Please make sure your abstract is separate from your registration, this way it is not missed.

If you have questions on the process please contact Annette at the e-mail address above or via telephone at 701-239-1206.

Sclerotinia Management in Canola Production Systems Following Application of Three Biologically-Based Fungicides to the Soil Profile

John R. Johnson, University of Northern Montana, Billings, MT & James J. Jefferson, Southern Wyoming State College, Cheyenne, WY

Funded Plan of Work: Development of Sclerotinia Management Programs in Canola

ABSTRACT:

Work was conducted in 2023 to better understand the effectiveness of management of white mold following application of three novel biologically-based fungicides.
