

Field Day June 6th 2024

Winter Camelina: From Research to Production

Please join us at the **North Central Soil Conservation Research Laboratory (Soils Lab)** for a tour of on-farm research sites and discussions of winter camelina in collaboration with Greg Fynboh, Forever Green, and Cargill!

Schedule:

- 9:00 Registration @ the Soils Lab
- 9:30 Welcome
- 10:00 Buses depart
- 10:20 On-farm field tour begins
Talks will be 30 minutes each
- 11:30 Buses return
- 12:00 Lunch @ the Soils Lab
sponsored by
Barnes-Aastad
- 1:00 Farmer panel
- 1:30 Camelina Markets &
Support Programs
- 2:15 Buses depart
- 2:30 In-field Camelina Agronomy
Checklist and Relay
Cropping Discussion
- 3:30 Buses return

Our local research team will demonstrate how the work we are doing with LTAR (Long Term Agroecological Research) and oil seed crops is being brought to farmer's fields.

Complimentary lunch will be provided at the Soils Lab following the field tour.

Forever Green will be hosting a farmer panel, discussion of markets and camelina agronomics, and offering an additional field tour in the afternoon.

Tours depart from the Soils Lab at 803 Iowa Ave. Morris, MN 56267.
