
CLAMTASTIC SEAFOOD, INC.

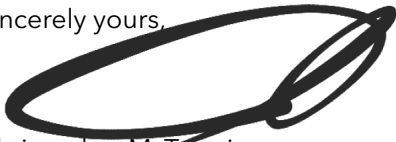

August 28th, 2018

To whom it may concern:

These are our answers to the questions:

1. We are a Clam farming business.
2. Over regulations and farm security are the two major factors limiting our growth.
3. Quicker red tide testing protocols and advanced radar technology for farm security.
4. New species development and more effective water quality monitoring for limited closers.
5. Email and regular mail through DACS' AQ program.

Sincerely yours,
